PERFEX POLISHING PASTES

GENERAL USE : A complete range for the pre-polishing and polishing of paint and varnish applied on metals or plastic.
EFFICIENT REMOVAL OF:

- Sanding marks
- Orange peel effects
- Hologram.

TECHNICAL DATA : Product composed of aluminium oxide abrasive without silicon (not harmful for any paint type).
 Bottle of 1kg.

The main steps to touch up on painted or varnished body parts

PREPARATION BEFORE SANDING

If necessary, polling the defect.

DEFECTS SANDING

1 - Start at the edge of the defect, and then move towards it without any pressure on the sander. Then rotate quickly.

2 - Clean the disc to increase its lifetime.

3 - Clean the sanding dust with the PERFEX micro fibre cleaning cloth.

POLISHING

1 - Put some PERFEX polishing paste on a polishing disc of the PERFEX range.

2 - Put the polishing machine on the area, which needs to be treated and start with light pressure. Finish with larger movements.

3 - Clean the sanding dust with the PERFEX micro fibre cleaning cloth.

PERFEX POLISHING DISCS

A professional quality for a perfect touch up.
